ChiBizHub, Chicago’s innovative new web platform that connects expert service providers to our fast-growing business community. In an effort to ensure all businesses have the resources and support they need, ChiBizHub has been developed as a one-stop, collaborative platform to help new and existing Chicago businesses accelerate their growth.

Small and medium-sized business owners can access a wide variety of services, ranging from legal counseling to accessing capital, helping businesses to scale and grow.

With over 100 resource partners signed up to help Chicago businesses, the ChiBizHub network is poised to play a central role in connecting and growing Chicago’s entrepreneurial community. Through the ChiBizHub platform, business owners can directly contact resource partners for assistance or utilize one of our “Resource Navigators.” Resource Navigators will work with business owners to identify the right provider based on need, location, industry, stage of business, and additional criteria.

In addition to its targeted matchmaking between providers and businesses, ChiBizHub provides guidance for licensing and management of a start-up enterprise, catalogues business-focused events across the city, and hosts a running blog series featuring Chicago entrepreneurs.

For a solution that is only as powerful as its members, we are greatly encouraged by the high level of participation in ChiBizHub to date. We very much look forward to how this innovative community network will bring growth and prosperity to Chicago and help define the next chapter for Chicago business.
